ClinicMax EHR Version 15.0 Receives
ONC-ACB Certification by Drummond Group

Germantown, MD. December 27, 2017 –ClinicMax, Inc. and Drummond Group, Inc. have announced that ClinicMax EHR Version 15.0 has achieved Office of the National Coordinator for Health Information Technology (ONC-Health IT) 2015 Edition Complete EHR or Health IT Module Certification via Drummond Group LLC, an Authorized Certification Body (ACB) that has been empowered to test software for compliance with the requirements of the federal government's program. The stamp of approval designates that the software offers the functionality that enables eligible providers and hospitals to meet Meaningful Use requirements, qualifying these organizations to receive payments under the ongoing EHR adoption program.

Drummond Group's ONC-ACB certification program certifies that EHRs meet the meaningful use criteria for either eligible provider or hospital technology. In turn, healthcare providers using the EHR systems of certified vendors are qualified to receive federal stimulus monies upon demonstrating meaningful use of the technology – a key component of the federal government's push to improve clinical care delivery through the adoption and effective use of EHRs by U.S. healthcare providers.

With more than 15 years of testing experience across various industries, Drummond Group LLC (DG) brings a high level of technical expertise to this process. Its healthcare experience also runs deep, having certified hundreds of EHRs since becoming an ACB in 2010.

ClinicMax EHR Version 15.0, which met the requirements for a Complete Ambulatory EHR, is an easy-to-use secure web browser-based Electronic Health Record system that has been developed from the ground up, with the understanding that an EHR must have the capability to exchange data with other systems in the healthcare ecosystem. ClinicMax EHR Version 15.0 has been designed to minimize work effort and easily integrate within existing processes and workflows.

> *"Leveraging information technology for healthcare initiatives provides the opportunity to deliver a high-level quality of care and efficiency which essentially benefits and enhances the overall patient experience. We have been testing software for more than a decade and will continue to provide our extensive experience testing and certifying complex systems for multiple industries, as well as ensuring interoperability and security remain key components in the growing healthcare industry."* Rik Drummond, CEO, Drummond Group, Inc.

ClinicMax's complete EHR is 2015 Edition compliant and has been certified by an ONC-ACB in accordance with the applicable certification criteria adopted by the Secretary of the U.S. Department of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services or guarantee the receipt of incentive payments.

> **Additional software used:** phiMail Server, PopHealth

About ClinicMax, Inc.
ClinicMax, Inc. began as a natural out-growth from JAG Technology Group, when it began developing Electronic Health Records software in 2002. Lead by a team of top-notch software designers and experts in the field, ClinicMax was one of the first to receive certification for radiation oncology-specific eHR. With the adoption of the American Recovery and Reinvestment Act (ARRA) and its Meaningful Use requirements, the demand arose for a streamlined method to gauge Clinical Quality Measures in all kinds of practices. ClinicMax incorporated in 2012 and soon expanded its scope to include customizations for Family Practices and Specialists. Now, with the addition of *ad hoc* services specifically designed to aid the medical community in addition to our core eHR products, ClinicMax is poised to become a leader in Electronic Health Records by providing customized, affordable and easy-to-use solutions for your practice. More information can be found at www.clinicmax.com or by calling (240) 668-4825.

About Drummond Group Inc.
Drummond Group Inc. is a global software test and certification lab that serves a wide range of vertical industries. In healthcare, Drummond Group tests and certifies Controlled Substance Ordering Systems (CSOS), Electronic Prescription of Controlled Substances (EPCS) software and processes, and Electronic Health Records (EHRs) – designating the trusted test lab as the only third-party certifier of all three initiatives designed to move the industry toward a digital future. Founded in 1999, and accredited for the Office of the National Coordinator HIT Certification Program as an Authorized Certification Body (ACB) and an Accredited Test Lab (ATL), Drummond Group continues to build upon its deep experience and expertise necessary to deliver reliable and cost-effective services.
